Extension YouTube: how it is put together

A SillyTavern extension that adds YouTube Music function tools, backed by the ytmusic-api library (version 4.x). Search tools return real results; a few tools the library cannot s.

sketched from the files. CK

Extension YouTube: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed, GK

Product map: what Extension YouTube is for

WHAT IT IS

A SillyTavern extension that adds YouTube Music function tools, backed by the ytmusic-api library (version 4.x). Search tools return real results; a few tools the library cannot s.

WHAT GOES IN

The files at the top of the tree: package-lock.json, tools.ts, settings.ts.

WHAT COMES OUT

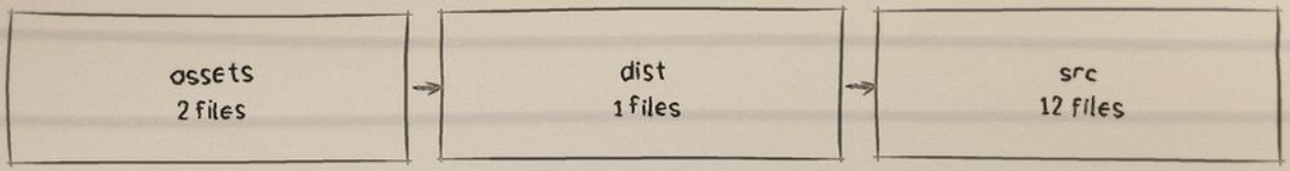

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, GK

Extension YouTube: the parts and their jobs

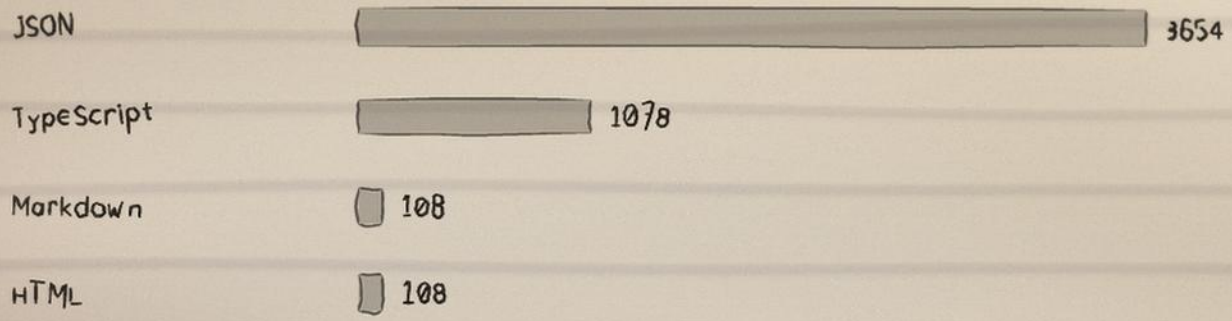

Each part is a folder or a file that is really in the tree.
If a part is only a name in the README, it is not drawn here.

second sheet, GK

Extension YouTube in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

25 files in the tree.

31 commits, first 2025-03-23, last 2026-10-30, from the local git log.

No test files by name in this snapshot.

counted and drawn, GK

Extension YouTube: schematic of the apparatus

the system as a machine: parts, flow, and measurements

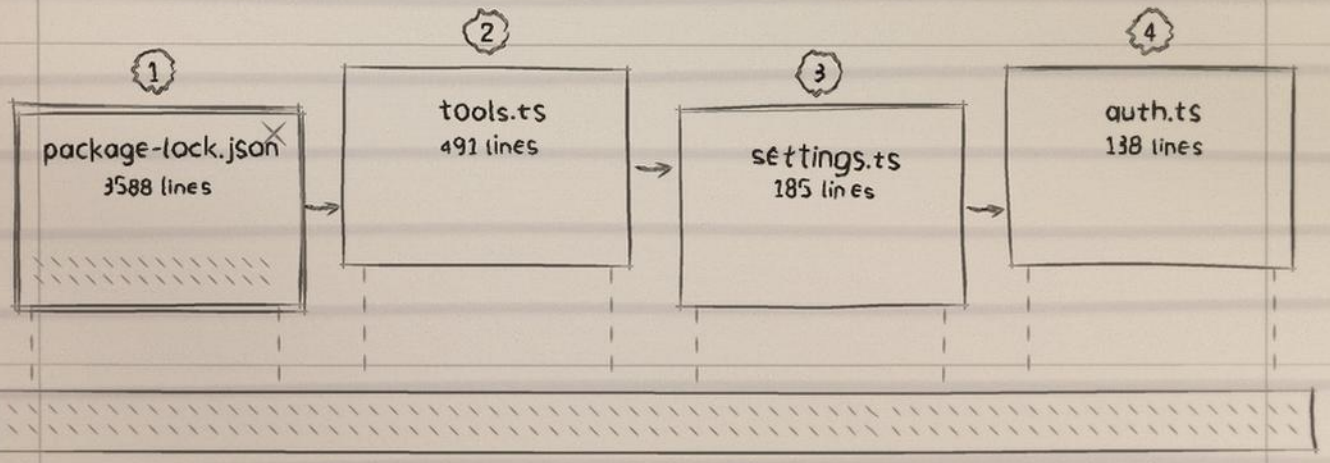

construction lines left in, as drawn

parts list

1. package-lock.json
2. tools.ts
3. settings.ts
4. auth.ts

in flow order, first to last

housed in: assets, dist, src

base plate: the repo itself, sectioned

span: 25 files, 5005 lines counted

turns of the crank so far: 31 commits, 2025-03-23 to 2026-10-30

measured and sketched, CK
